PROFESSIONAL SUMMARY

Entry-level Web Developer with hands-on experience building browser-based applications using HTML, CSS, and JavaScript. Developed multiple responsive interfaces, optimized front-end performance, and applied AI concepts such as Large Language Models at a conceptual and implementation level. Currently strengthening skills in cloud platforms and scalable web systems.

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6) – built 3+ complete front-end projects
- Responsive Web Design – layouts tested on 5+ screen sizes
- DOM Manipulation – event handling, dynamic rendering, state updates
- React.js (Basics) – functional components, props, simple state usage
- Git & GitHub – version control across 10+ repositories
- AI Fundamentals – LLM concepts, prompt workflows, generative AI basics
- Cloud Fundamentals – AWS architecture basics, Oracle Cloud services

PROJECTS

Interactive Web Applications

- Built 3 responsive web applications using HTML, CSS, and JavaScript from scratch.
- Implemented 18+ UI features including navigation menus, modals, form validation, and animations.
- Reduced average page load time by approximately 28% by optimizing CSS selectors and minimizing DOM depth.
- Tested applications across 3 major browsers (Chrome, Firefox, Edge) and resolved layout inconsistencies.
- Integrated AI-assisted logic for automated content generation and workflow experimentation.

Personal Portfolio Website

- Developed a one-page portfolio showcasing 5 projects, certifications, and technical skills.
- Designed layouts adaptable to mobile, tablet, and desktop resolutions.
- Structured HTML with semantic tags to improve readability and basic SEO indexing.

KEY ACHIEVEMENTS

- Completed 10 industry-recognized virtual job simulations covering cloud, software engineering, and cybersecurity.

- Solved 25+ practical tasks involving system design, debugging, and technical decision-making.
- Analyzed real-world engineering workflows used by AWS, Oracle, Deloitte, and JPMorganChase teams.

EDUCATION

Bachelor of Technology (B.Tech)
Integral University, Lucknow
2024 – Present

CERTIFICATIONS & VIRTUAL EXPERIENCES

- AWS – Solutions Architecture Job Simulation, Forage (Dec 2025)
- JPMorganChase – Software Engineering Job Simulation, Forage (Dec 2025)
- Deloitte Australia – Technology Job Simulation, Forage (Dec 2025)
- Deloitte Australia – Cyber Job Simulation, Forage (Dec 2025)
- Amazon Prime Video – Career Tour, Springpod (Dec 2025)
- BSc (Hons) Computer Science with Dr Paul Sant, Springpod (Dec 2025)
- Oracle Cloud Infrastructure 2025 AI Foundations Associate, Oracle (Dec 2025)
- How Large Language Models Work, IBM (Aug 2025)
- Introduction to Generative AI, Google (2025)

ADDITIONAL INFORMATION

- Comfortable working with unfamiliar tools by reading documentation and examples
- Able to break down problems into smaller technical tasks
- Experience collaborating via GitHub repositories and issue tracking
